

FESTFLOOR

TECHNICAL DATA SHEET

FESTPrimer

Single-component, ready-to-use water-based acrylic primer

DESCRIPTION

FEST Primer is a ready-to-use, single-component, water-based acrylic primer designed for application before PU FEST 2K sealer application. Its special formula improves the adhesion of PU FEST 2K sealer to the substrate and increases resistance to water and alkaline dirt. A neutral, anti-allergenic product, pet-friendly.

TECHNICAL DATA

- Efficiency: 1L: 10m²-15m²
- Color: transparent
- Shelf life: 12 months
- Application temperature: +15°C ÷ +25°C
- Drying time: 12h-24h

DIRECTIONS FOR USE

The surface must be fully cured, load-bearing, dry, clean, and free from dust, waxes, oils, etc. Shake the FEST Primer container well before use. Apply using a high-quality nylon or microfiber roller with an 8 mm pile length. If necessary, it can be diluted with water by 10%
