

# FESTFLOOR

## TECHNICAL DATA SHEET

# THIXO+

## Microcement thickener

## DESCRIPTION

THIXO+ is a very fine powder that improves the application properties of microcement. It stabilises the mix, thickens the microcement, suspends and stabilises pigments, and prevents the mix from clumping. It does not change any other parameters of the microcement.

## PROPERTIES

- Improves consistency
- Stabilises pigments
- Prevents clumping

## TECHNICAL DATA

- Composition: Amorphous synthetic silica (CAS: 7631-86-9 / 112945-52-5), purity: min. 99%.
- Shelf life: 12 months. Store in a dry place, in a tightly closed package.

## DIRECTIONS FOR USE

Add 0.5 – 2 % THIXO+ to the microcement mix (e.g. 5–20 g per 1 kg of microcement). Mix thoroughly until a homogeneous mass is obtained. The product is insoluble – it forms a suspension. There are no limits on the maximum dosage – trial tests are recommended.

## PACKAGING

The product is supplied in a 50 g package.

## CLEANING OF TOOLS

Clean equipment and tools immediately after use with water.

## SAFETY AND HEALTH

- Note: A light, dusty powder – use in a well-ventilated area.
- Avoid inhaling dust.
- Use protective clothing and a dust mask.
- Protect eyes and respiratory tract.
- Product for professional use.
